SHORT RESUMÉ

Jan 2026-Present

Digidokter

DIGITAL SUPPORT SPECIALIST · Veurne 📍

I provide hands-on IT support to citizens facing digital barriers. Deliver a wide range of troubleshooting, from software authentication (such as Itsme) to hardware fixes (printers), while translating complex technical concepts into accessible advice for less tech-savvy individuals.

2023-2026

Zeus WPI

PUBLIC RELATIONS · Ghent 📍

As PR for Zeus WPI, I managed both internal and external communication. My responsibilities included delivering presentations to engage students, maintaining the website and social media platforms, designing promotional materials such as graphical posters, and coordinating with event organizers to ensure effective communication.

summer of 2025

Federal Judicial Police East Flanders OSINT Division

OSINT · Ghent 📍

Designed and developed a full-stack intelligence solution for the OSINT Division. This included creating a social media scraper to automate data acquisition for criminal investigations. Additionally, I engineered a secure internal website that allowed investigators to efficiently view, filter, and export the scraped data, transforming raw intelligence into actionable insights and significantly streamlining the investigations.

EDUCATION

2026

Master of Science - MS, Computer Science

CERTIFIED · Ghent university 🏛️

2024

Bachelor of Science - BS, Computer Science

CERTIFIED · Ghent university 🏛️

PROGRAMMING

python

C/C++

html, css

javascript

PERSONAL/SCHOOL PROJECTS

2023-2024

Ypovoli

SOFTWARE ENGINEER · Ghent 📍

A custom web application to streamline project submissions with features like submission structure validation, customizable checks including code tests, and flexible submission acceptance criteria. This was a university project, and earned a score of 18/20.

2024-Present

Haldis een prijsje

PROJECT MAINTAINER · Ghent 📍

'Haldis een prijsje' is a dockerized Python/Flask Zeus WPI project that automates menu and price scraping from restaurant websites. By parsing this data into a custom format, it integrates seamlessly with Haldis, an internal ordering system used by Zeus WPI to streamline group food orders. The project automates menu retrieval, reduces manual input and ensures accurate pricing.
